

8th Global Leadership Conference

Shaping an
equiverse

24th November 2023

Holiday Inn, Aerocity, New Delhi

THEME

The world progressed over the decades and the prosperity that came from this progress was phenomenal. But unfortunately, the needle on gender inequity has moved backwards mainly because of the drastic fall in economic participation in South Asia.

In our endeavour, to support a gender-equitable world, in 2021, we introduced the concept of an **Equiverse - a Universe where equity is the norm**. In 2022 conference, we discussed how to transform the universe to be more equitable in terms of access to Work, Wealth, Well-being and Welfare for Women.

This year we will delve deeper into exploring pathways to achieve Gender Parity through specific policy interventions to foster change:

- i) at individual levels in our different avatars, as parents, partners, sons and daughters, colleagues and leaders,
 - ii) at education institutional levels as students, teachers, influencers and policymakers,
 - iii) as employers and leaders providing work opportunities and
 - iv) at societal levels, in urban spaces
